The Golden Plumber is scanned the same way as its BrightLocal baseline; the others include listings without a map pin, so the two are not compared directly.

High Stakes AI, internal

Google categories

- ☐ Run the category prompt: Magnolia Painting primary to Painter; Tree Care adds Debris removal service.
- ☐ Miller and Magnolia Outdoor Living are not in your Google account. Ask the owners to add you as a manager, or to make the change themselves.
- ☐ Ask Cade: does he do septic work, and gas line work? Add a category only for a yes.
- ☐ Ask Kevin (Tree Care): is he a certified arborist? And which phone is right, 503-2787 or 612-6999?

Reports in October

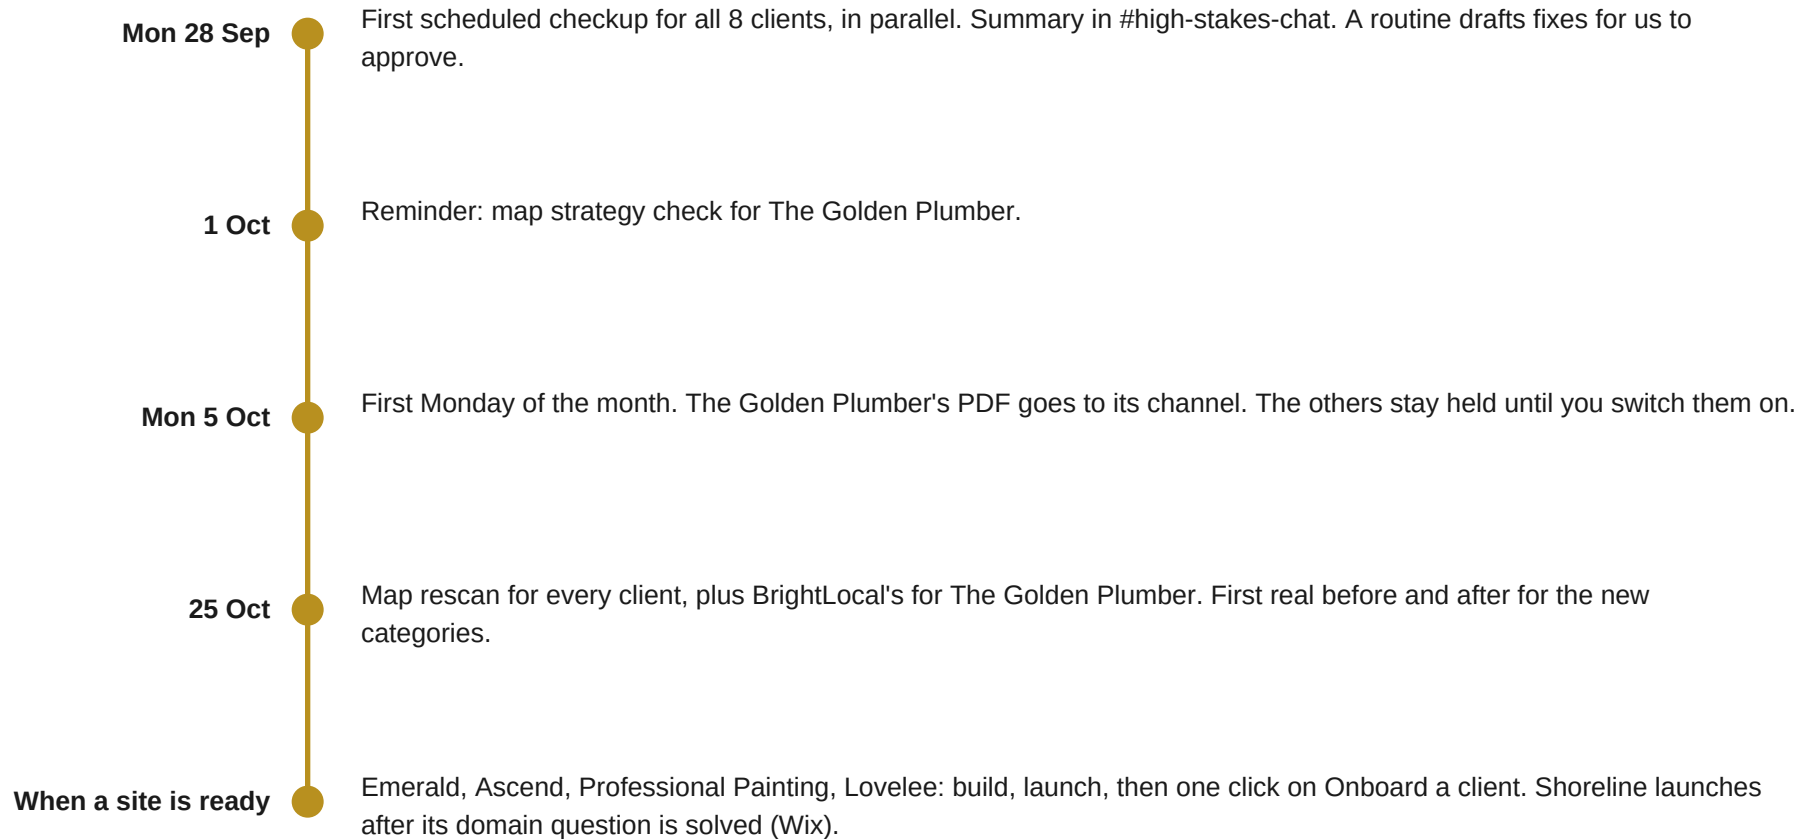

- ☐ Read each new client's first monthly PDF, then switch it on (client_report set to true). Until then it stays with us.
- ☐ Tell me which clients' map search terms look wrong. I picked them from each site's service list.

Search Console

- ☐ Shoreline: add the TXT record in Wix with the prompt you have, then verify and add the audit account.
- ☐ Valeria: change her Google profile's website button to seenbyvaleria.com.

The Golden Plumber

- ☐ Re-paste all 9 pages and the 404 page from standalone/ so the new logo goes live.
- ☐ Nothing else. The checkup and the monthly PDF run on their own.

Running cost of the automation

Map scans about \$1.30 a month for all clients. Everything else runs on existing accounts. BrightLocal stays on 1 location.
